25X1A

25X1A

1. Your two returned Medical Officers, [REDACTED], have written interesting and constructive reports concerning their pioneering efforts — together in part with [REDACTED] — in this vastly important medical support program.

25X1A

2. In particular, I commend their resourcefulness, intelligence and conscientious attention to duty. It is a great relief and satisfaction to me to know of, and count on, this quality of support for our increasingly important operations in what is admittedly an all-round difficult area.

3. These reports are deemed of sufficient importance to ask a reading by the Deputy Director (Administration) and his principal assistants. This I am now doing herewith.

25X1A

b. Please accept for yourself and [REDACTED] and so express to [REDACTED] my personal and official appreciation for this work.
